

RPC – North Country Region

Clinton–Essex–Franklin–Hamilton–Warren–Washington

North Country Regional Planning Consortium
Housing Workgroup Meeting
February 3– 4pm

Vision

The North Country Regional Planning Consortium will develop recommendations and strategies to effectively increase access to safe and affordable housing for individuals with behavioral health conditions or other special populations who live in our rural communities.

Purpose Statement

Our primary purpose is to identify the barriers/challenges in accessing and providing housing in the North Country. This will be accomplished by the completion of a SWOT analysis to include housing related data from the RPC region. Central to our work is the understanding and articulation of the experience of living in the North Country and how it affects access to safe and affordable housing.
